Objective

Strong Math & Science student with a passion for AI/ML. Experienced in building end-to-end AI tools, participating in Kaggle competitions, and deploying web applications. Enthusiastic team player with leadership experience in school clubs and community service.

Education

Grade 11, **PCM** - 2026-27
Class 10 Boards: 96%+ (results pending)
Relevant coursework: Physics, Chemistry, Math (JEE-focused)

Projects/Experience

Vivid AI | Python, TensorFlow, Vercel
- Developed a professional AI-assisted tool for building, visualizing, and optimizing coding workflows.
- Enables users to generate and modify vibe coding prompts and architectures with real-time visual feedback.
- Deployed end-to-end on Vercel, demonstrating practical full-stack deployment skills.

BirdCLEF+ 2026 (Kaggle Competition) | Python, TensorFlow
- Participated in a global AI competition for bird sound classification.
- Explored complex model architectures to tackle a challenging multi-class problem; achieved baseline performance while gaining hands-on experience in real-world ML pipelines.

Key Skills

Programming & ML: Python, TensorFlow, PyTorch
Web Deployment: Vercel, React, Django
Tools: Git, Jupyter Notebook, Kaggle, APIs (OpenAI, Grok)
Other: Problem-solving, Reasoning

Achievements & Leadership

- **IOQM 2025** - Top 10% student nationally
- **Iranian Combinatorics Olympiad 2025** - 51st globally
- **MIT OCW HODL** Course (Prof. Rama Ramakrishna)
- Golden Badge **Cyber Club Secretary**, NPS KRM - organized 2 Interhouse cyber challenges
- **Community service** - school-organized Old Age Home visit
